

TENSAY

Reference Guide

FARCRY
PRIMAL

TENSAY is the psychotic yet charming Wenja shaman, intense and animalistic. He chews mind-altering plants, communicates with the spirits of nature, and holds audiences rapt with his colorful stories and animated personality.

As the Wenja's only shaman, he is the keeper of the tribe's beliefs.

When not lost in a hallucinatory spirit vision, he devotes his attention to healing the wounded, aiding births, and conducting funeral rites for fallen Wenja.

A year ago Tensay was captured and enslaved by the fire-wielding Izila tribe.

They scorched his flesh with the fiery mark of a slave and forced him to erect their megalithic standing stones.

After suffering months of back breaking work, Tensay finally escaped and wrapped himself in a wolf skin to hide in the wilderness.

Traumatized and half crazed, he set out to call upon a spirit strong enough to gather the scattered Wenja tribe and unite them against his former captors—the Izila.

Wall-eyes with different pupil scales

Wolf coat and deer antlers

Body painting with charcoal and white mixture

Destroyed leather belt with cauri shells

WENJA arm bracelet,

with shells and vegetal rope

Right arm
burnt by Izila
